Election/Restriction

- 1. A telephone call was made to Edward Kmet on 17 September 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.
- 2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1 28 and 46 73, drawn to Figures 1 16d, classified in class 347, subclass 15.
 - II. Claims 29 45, drawn to Figures 17 and 18, classified in class 358, subclasses 1.6 and 1.8.
- 3. There is no generic claim.
- 4. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as media motor feed control not based on white line data. See MPEP § 806.05(d).
- 5. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.
